There is a lot of statues of great people and some other landmarks may catch your eye.

If you are having troubles getting around there are transportation centers everywhere. Just press a button, order a car, a taxi or whatever you might find and your ^{vehicle} ~~transport~~ will arrive shortly after.

How about getting something to eat next? Although restaurants are mostly obsolete there are some that operate to this day. You can visit them or order food through the delivery app. All of the world cuisine is at your fingertips, ~~un~~ including traditional Russian cuisine. Our drones are equipped with the new pathfinding software so your food will arrive within minutes.

Most people work outside of town, but if you'd like you can visit our famous ship building factory and meet some of the workers. You will be able to see ^{how} ships are made and even ride on one. New technologies allow for safe and fun interaction with the ships and manufacturing robots.
