## The Town of History and Science.

Fifty years ago Kingisepp was the town many people haven't heard about. But many things changed since then, and now many people come here to spend their holidays. What is so attracting about this town?

~~It has a long history.~~  
The town has a very long history. It has been settled ~~back in the~~ <sup>400 years ago</sup> century, when the Yam castle was built. But the castle was destroyed, and all that ~~remind~~ <sup>reminded</sup> of it were hills. But recently, using new software designed specially for this case, the castle had been reconstructed. Now anyone can visit this place, that has become a historical museum.

If you are looking for something more modern, there are many facilities in the centre of the town. There are shopping malls, sport courts, cinemas and so on. A great way to spend your weekend!

The town has its own well-developed transport system. There is no private transport, because the public one is way more convenient - it's fast and cheap. Also, there are bicycle stations all over the town. You can take the bicycle for no charge and use it all day long. Because of that, this vehicle has become the most popular way to move around the town. Moreover, there is an opportunity to go to St-Petersburg on a high-speed train.

Having ~~the biggest~~ <sup>a big</sup> chemical factory near it, the town has become the center of chemistry in Russia. Many scientists are going here for the annual conference, being held in the local university. If you are interested in science, you should visit The Chemistry museum, based in this university.

We are looking forward to see you in Kingisepp!
